

STAMPS

Dear Jann and Kim

I thought that I

would make you a stamp

album. I have got you

some special stamp

stickers

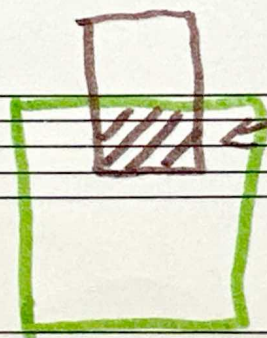

First you find out which side

of the sticker has glue on it.

I nearly always get it wrong

Then you stick it half on

the stamp

stick it here, on
the back of
the stamp

Then you stick the other
half of the sticker on to the
page like this, with
the stamp upside down

Then you fold the stamp over
like this.

Here are stamps from

Kenya

Kenya is in Africa.

It has lots of funny animals

Swaziland

is right next to South

Africa

There arent really any

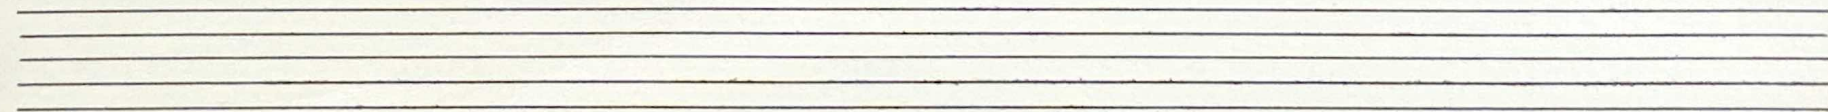

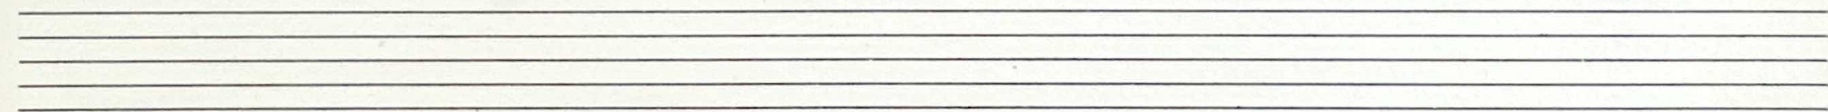

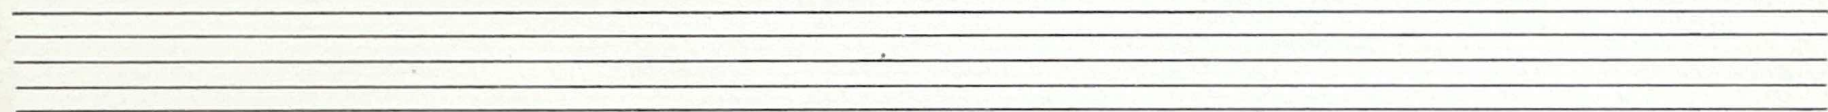

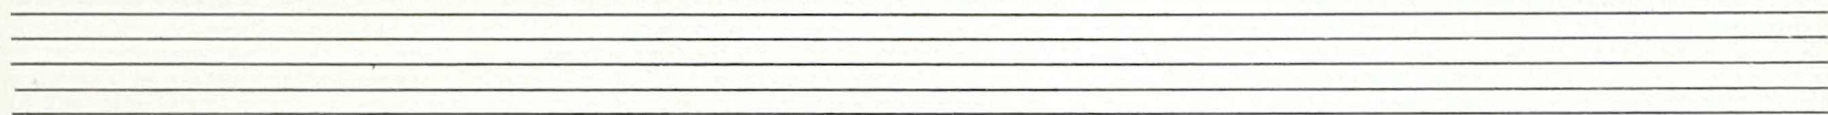

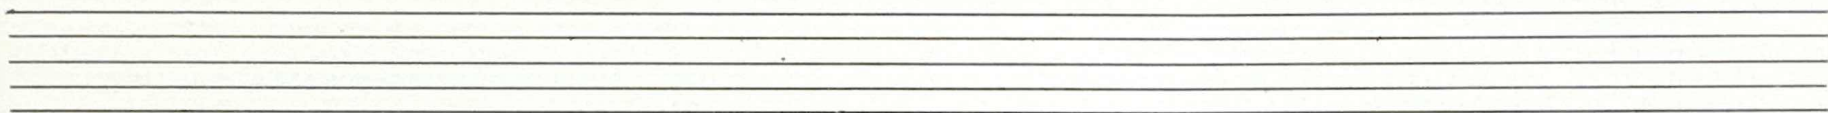

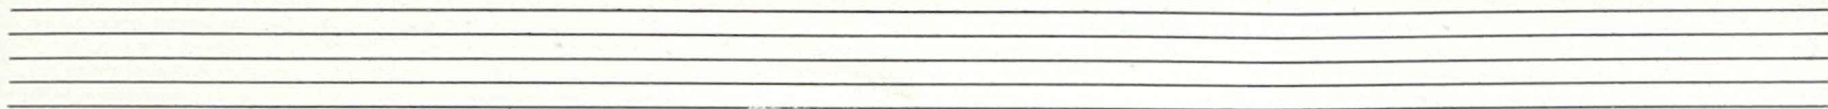

elephants in Swaziland

Malawi

is also in Africa.

It is a small country

Egypt

is right at the other end

of Africa, in North Africa

Most of Egypt is desert where
nobody lives. But there is one

big river and lots of people

live by it.

The little
pictures of
birds and
things are
old writing
called
hieroglyphics

Great Britain

is where Grandma was

born. The man in the top stamp

is called Hudson. He thought he discovered Hudson Bay. But actually the

Estimoes knew it was there all the time.

The woman in the bottom stamps is the Queen.

I don't know what they have a Queen for

France

is where Jann was born

It is in Europe and is quite

near to Great Britain.

It has some very pretty big stamps

which you should try to find.

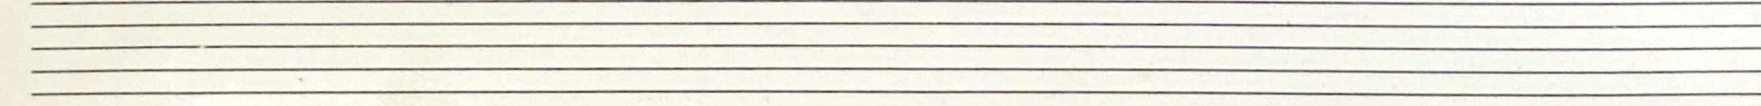

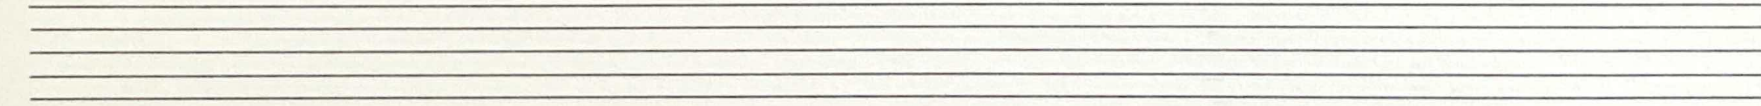

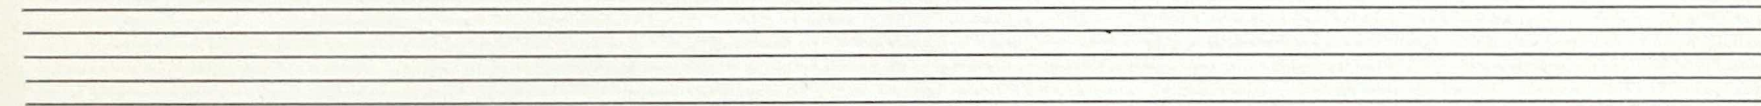

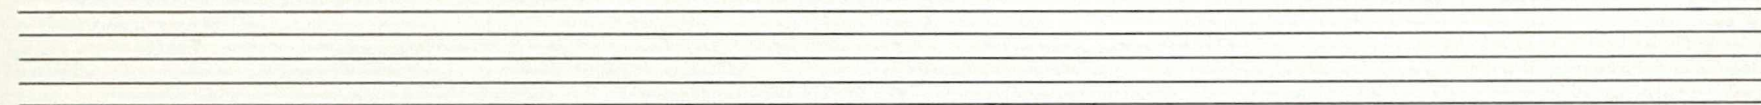

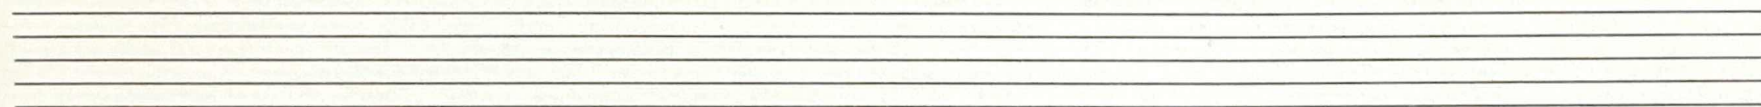

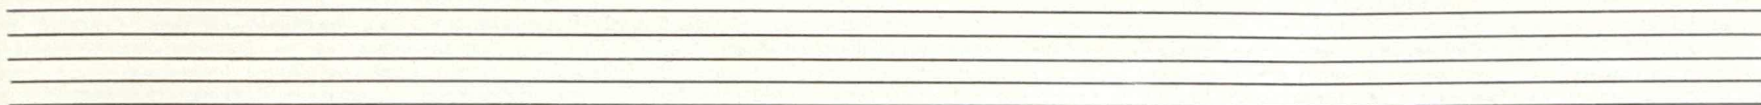

Austria

is a country in the middle

of Europe in the high

mountains. It has lots of old

castles like the one on the stamp

Holland

is a little country in

Europe. It also has a Queen.

Queens live in enormous houses

and spend the people's

money

Mexico

is in America. It had

a very old civilisation, but the

Europeans destroyed it when they

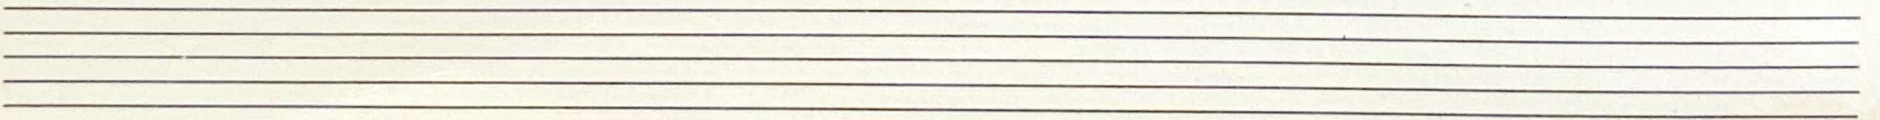

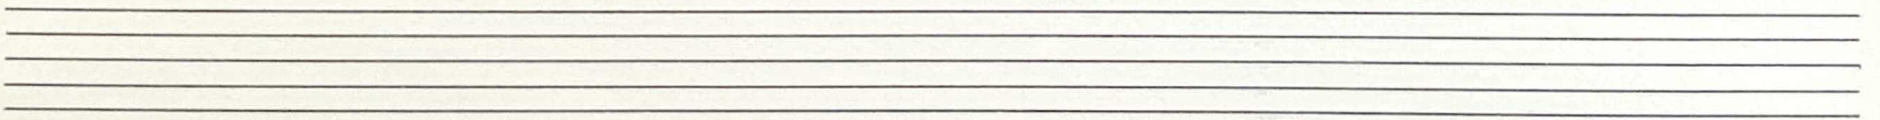

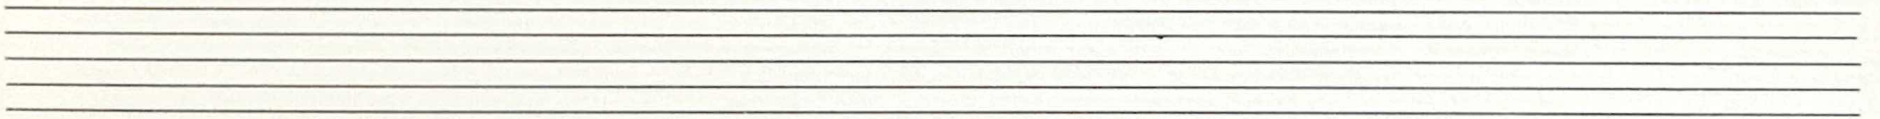

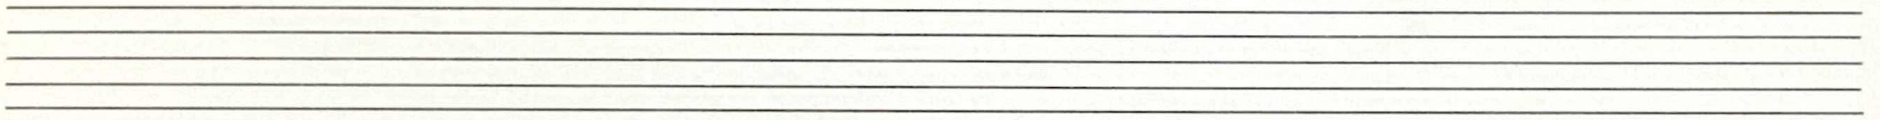

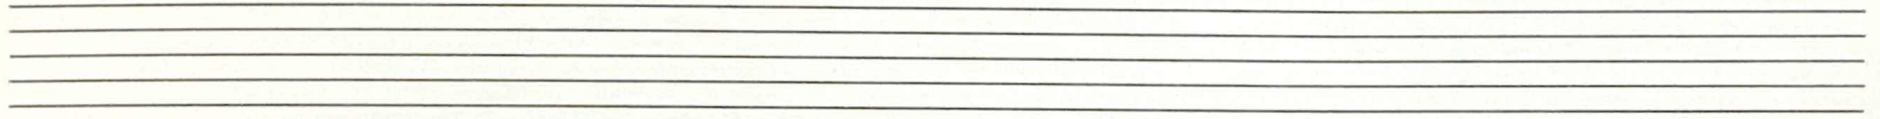

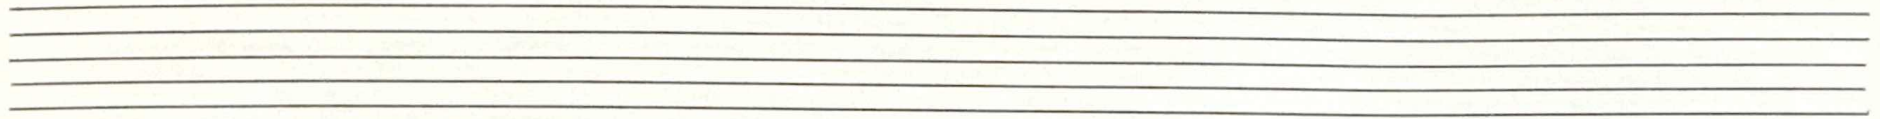

invaded Mexico

Israel

is a small country at the

end of Asia, just next

to Africa

India

is also in Asia.

It is where Grandma Jane is, so

I expect you will get lots of

Indian stamps. I will leave

you several pages for them

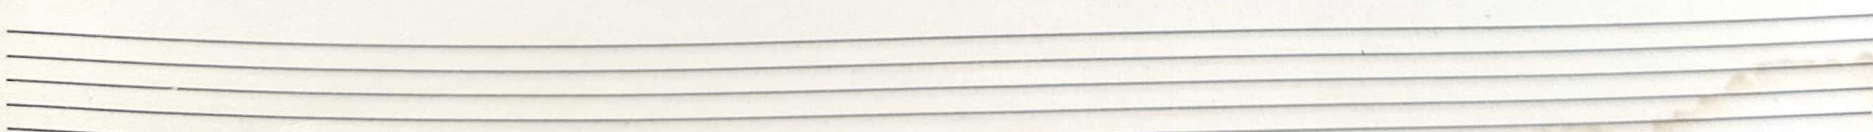

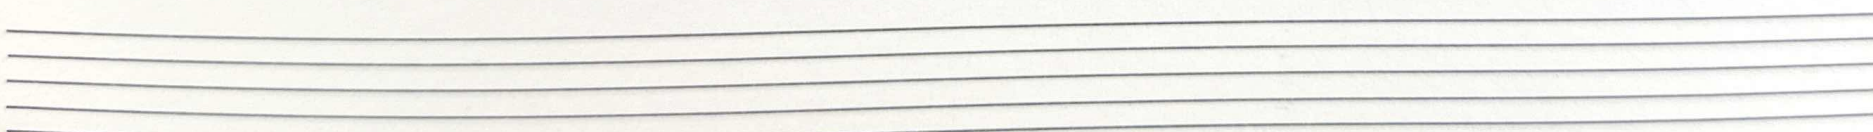

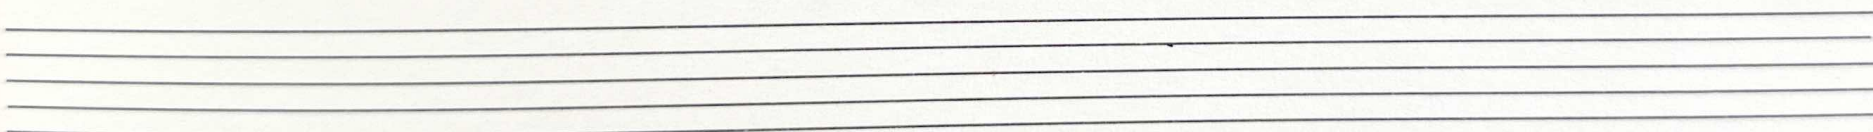

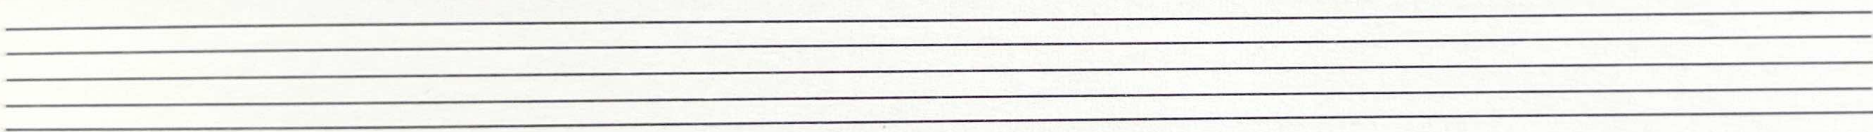

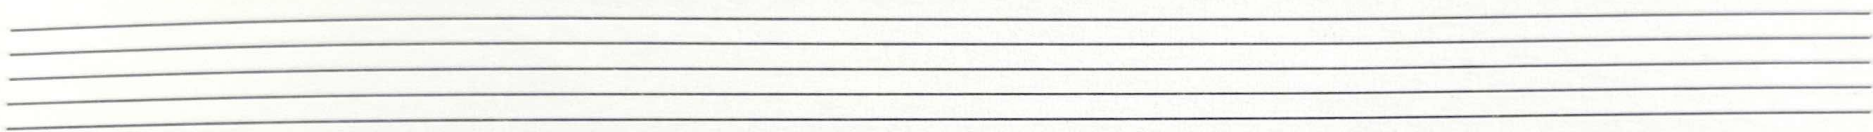

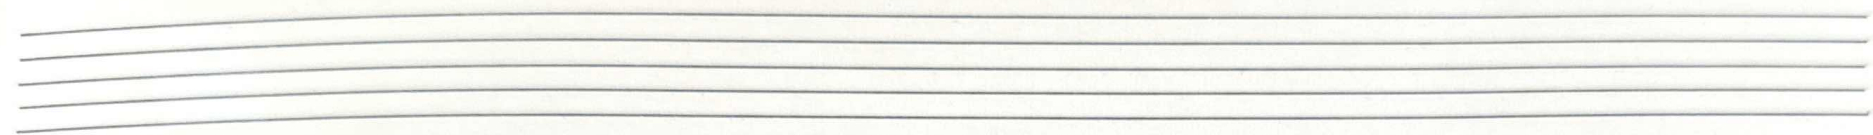

Afghanistan

is also in Asia quite

near to India. We got this

stamp off a letter from Jane

Ethiopia

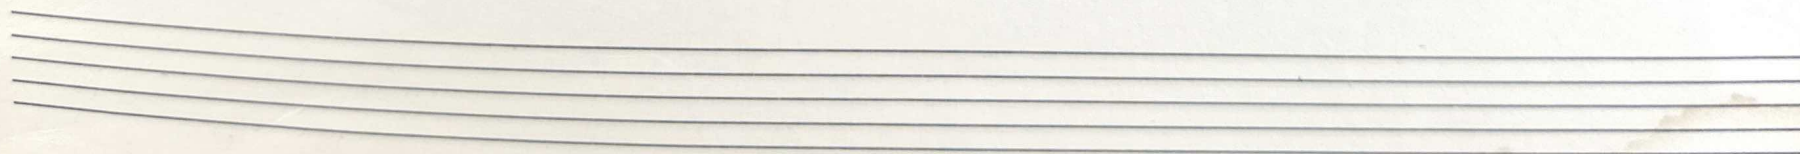

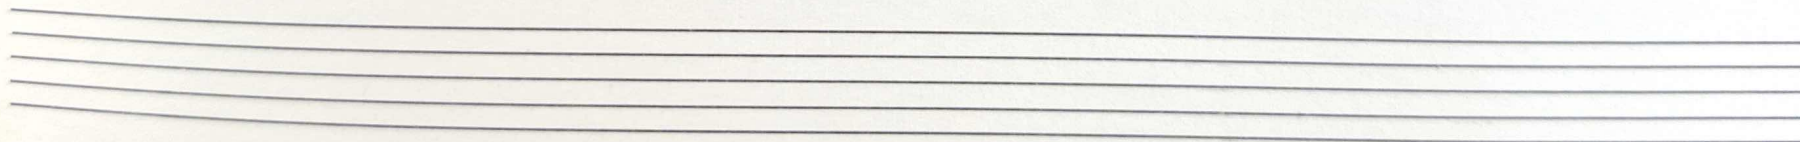

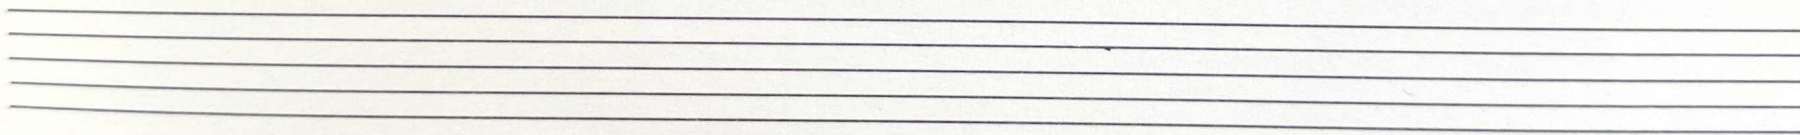

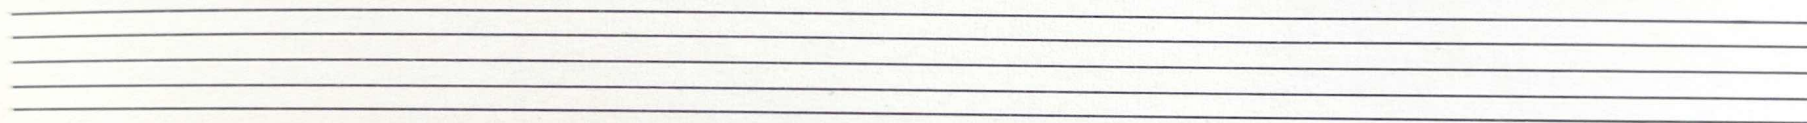

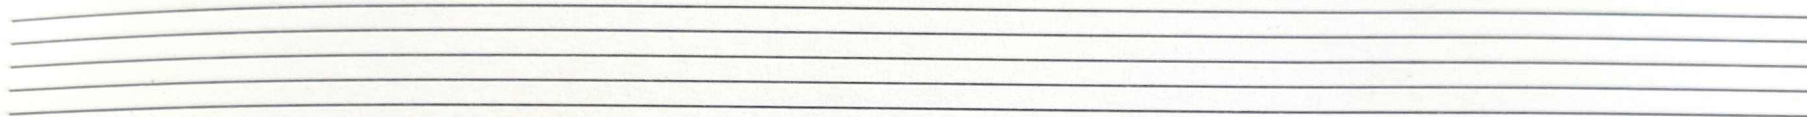

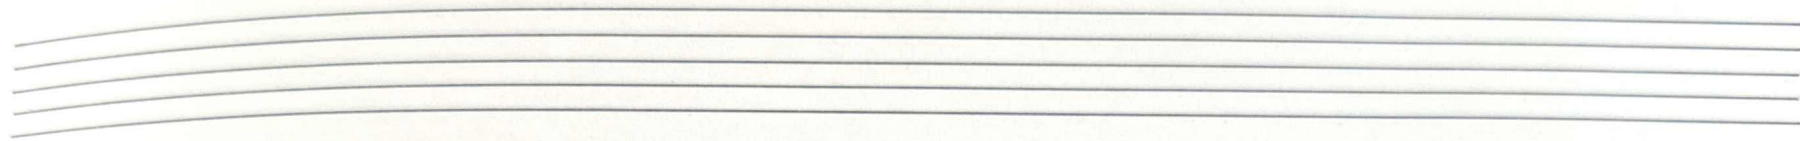

is in Africa.

Barbara used

to live in Addis Ababa,

which is the biggest city

in Ethiopia

Now you can stick some
of your stamps in in
the space left

love from

Richard and Foszia
